

Dhanapal

UI Developer & Full-Stack Frontend Engineer

Chennai, India | GitHub: [dhanapalsgithub](#) | Portfolio: [r-i-billing-pro.vercel.app](#)

PROFESSIONAL SUMMARY

Results-driven UI Developer and Frontend Specialist with extensive expertise in building high-performance web applications, enterprise management portals, and point-of-sale (POS) billing software. Proven ability to design responsive layouts, architect robust frontend components using React, Next.js, and TypeScript, and seamlessly integrate back-end databases with Prisma and PostgreSQL.

TECHNICAL SKILLS

Frontend & UI: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI (MUI), Vite

Backend & Database: Node.js, PostgreSQL, Prisma, MongoDB, Google Apps Script integrations

Mobile & Specialized: React Native, Expo, Thermal Printer Integration (ESC/POS commands)

Tools & Deployment: Git, GitHub, Figma, Vercel, Hostinger, Bambu Studio / Cura

PROFESSIONAL EXPERIENCE

UI Developer & Frontend Engineer

2025 – Present

R & I Engineering Technology & MarketFlow POS

- Architected and developed enterprise-grade web applications, dashboards, and authentication portals utilizing Next.js and Material UI.
- Built comprehensive Point-of-Sale (POS) views, receipt generation engines, and thermal printer integrations using custom ESC/POS print commands.
- Configured PostgreSQL database schemas via Prisma and established reliable backend API connections for real-time cloud data syncing.
- Created wireframes and user interaction flows in Figma, ensuring optimal responsiveness and modern UI/UX design standards.
- Managed application codebases using Git/GitHub and handled seamless deployments on Vercel and Hostinger cloud platforms.

Frontend & Mobile App Developer

2025 – 2026

DigitizingSchools & Independent Projects

- Developed responsive React Native screens and configured Expo build settings for cross-platform mobile app deployments.
- Created component navigation systems, branch locators, and workflow automation tools for modern business portals.

KEY PROJECTS

MarketFlow POS & Supermarket Billing System ([Live Demo](#)): Engineered a high-performance retail billing web application featuring Next.js routes, PostgreSQL database connections via Prisma, and instant thermal receipt printing capabilities.

R & I WorkSphere Enterprise Portal: Designed and built clean layout structures, secure authentication views, and segregated manager/employee portals using React and Material UI.

DigitizingSchools Mobile App: Built cross-platform mobile interfaces and configured navigation components using React Native and Expo.

EDUCATION & PROFESSIONAL BACKGROUND

Bachelor's Degree / Technical Education

Specialized in Computer Science & Software Development principles, focusing on modern web engineering, responsive UI design, and database integration.
